### **New Jersey Tree Recovery Campaign Provides Free Tree Seedlings to Toms River**

*(Toms River, NJ)* Free tree seedlings will be available to Toms River residents as part of the 5<sup>th</sup> annual New Jersey Tree Recovery Campaign. This program is part of an ongoing effort to replace trees destroyed by Superstorm Sandy.

From 10 a.m. to 1 p.m. on Saturday, April 14, 2018, residents will be able to pick up tree seedlings at the BJ's Wholesale Club at 941 Route 37 West or the Third Avenue parking lot in Ortley Beach. The Township will receive 2,000 trees. One thousand trees will be distributed to each location. Any remaining trees will be distributed at the Toms River Farmer's Market in downtown Toms River the following week. The Toms River Green Team and the Toms River Environmental Commission have volunteered to assist in the distribution.

Seedlings are available on a first come, first served basis, to any resident, not just those who live in Toms River. The seedlings also come with instructions on how to store, care for, and plant them. The guides help residents choose the right place on a property to plant a tree while keeping in mind the tree's full-grown size in the future. Residents should plant the seedlings within two days after pick-up to prevent the roots from drying out.

Mayor Thomas F. Kelaher stated, "Trees are an important part of our community, providing oxygen, improving air quality, preserving soil, and supporting wildlife. Our streets, parks, playgrounds and backyards are lined with trees that create a peaceful, aesthetically pleasing environment. Through the New Jersey Tree Recovery Campaign, homeowners can replant trees lost during Superstorm Sandy for free with a wide range of trees native to New Jersey such as oaks, dogwoods and maples."

After this year's planting, the Tree Recovery Campaign will have distributed over 500,000 tree seedlings to New Jersey residents. It is a joint effort between Toms River, NJ Forest Service Community Forestry Program and NJ Forest Nursery, New Jersey Soil Conservation Districts, Sustainable New Jersey, Arbor Day Foundation, BJ's Wholesale Club, Canon, and FedEx.
