

PROGRAM UPDATE!

TOMS RIVER COMMUNITY ENERGY AGGREGATION

FEBRUARY 8, 2016 – TRCEA ROUND 2

As described in detail below, the Township of Toms River established the second round of the Toms River Community Energy Aggregation (TRCEA) program, and awarded a contract to TriEagle Energy for the provision of power supply to Township residents at a price of \$.09344 per kilowatt-hour. This rate is approximately 8% lower than the average JCP&L tariff price for power supply! Residents who do not currently have a third party supply contract, did not previously opt-out of the TRCEA Round 1, or do not have a rooftop solar power system were included in the initial program eligibility pool. Those residents received a mailer from TriEagle Energy in early January 2016, describing the program and providing instructions on how to 'opt-out' of the program if they did not wish to participate in the program.

The initial opt-out period for the TRCEA Program has now been completed. Those residents who received the program notification last month, and did not opt-out of the program, will be enrolled by the program supplier, TriEagle Energy, for service beginning with your March 2016 meter read date. ***If you did not opt-out of the program, you should receive a letter from JCP&L in early February 2016 confirming the enrollment of your account with TriEagle Energy. This letter is merely a confirmation, and there is no further action that you need to do in order to participate in the TRCEA Round 2 Program and to begin enjoying the estimated 8% savings on the power supply portion of your bill.*** If for some reason you do not wish to participate in the program, you can simply contact JCP&L to 'rescind' your enrollment with TriEagle Energy.

Any residents that have not received any of the mailers, but wish to participate in the TRCEA program can join by simply calling TriEagle Energy at 877-933-2453.
